PROFESSIONAL SUMMARY

Versatile Full-Stack Engineer and Data Specialist with 7 years of experience delivering end-to-end features. Proficient in React, Node.js, and Python, with a strong background in efficient database design and cloud integration. Excellent at bridging the gap between data insights and user-facing application logic.

EDUCATION

Master of Engineering in Software Engineering

San Jose State University, 2016

Bachelor of Science in Electrical Engineering

University of California, Davis, 2014

CERTIFICATIONS

- Google Cloud Professional Data Engineer

WORK EXPERIENCE

Full-Stack Lead | Visa | March 2019 - Present

- Led a team of 5 developers in building a customer financial dashboard using React, Node.js, and PostgreSQL.
- Architected the application's REST API layer, ensuring fast and secure data transfer.

- Developed custom data visualization components in React using D3.js, providing key business insights to users.
- Optimized PostgreSQL database schemas and queries, improving application reporting speed by 30%.

Data Engineer | PayPal | June 2016 - February 2019

- Developed ETL pipelines using Python and Spark to ingest transactional data into the data warehouse.
- Managed and maintained MongoDB database clusters for high-volume non-relational data storage.

TECHNICAL SKILLS

Programming Languages: JavaScript/TypeScript (Expert), Python, SQL

Frontend: React, Redux, D3.js, HTML/CSS

Backend: Node.js, Express.js, REST APIs

Cloud Platforms: GCP, AWS

Databases: PostgreSQL, MongoDB, Spark

PROJECTS

Interactive Data Dashboard

- Created a real-time data visualization dashboard using React and a custom Node.js backend.
- Handled millions of data points, ensuring minimal load time via data aggregation techniques.
