SUMMARY

Highly motivated and results-oriented Senior Frontend Developer with a strong foundation in web development and a passion for creating user-friendly and accessible interfaces. Possessing a Bachelor's degree in Design & Technology and extensive experience in both front-end and backend development, I bring a proven track record of delivering high-quality applications utilizing modern technologies. Seeking a challenging role where I can leverage my skills and experience to contribute to a dynamic team and drive innovation.

WORK EXPERIENCE

Expedia

Senior Frontend Developer July 2020 – Present

- Led the migration of a legacy booking platform to React and TypeScript, resulting in a 40% reduction in client-side errors.
- Optimized frontend asset loading and caching strategies, improving page load speed by an average of 1.5 seconds across all key user flows.
- Implemented state management using Redux Toolkit across 10+ core modules, enhancing application stability and scalability.
- Collaborated closely with the backend team to define REST API contracts and improve data fetching efficiency.

Zillow

Full-Stack Developer June 2017 – June 2020

- Developed new features for the property listing site using React, Node.js, and MongoDB.
- Contributed to the overall development and maintenance of Zillow's platform.

SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3, Python, SQL
- **Frameworks/Libraries:** React, Redux Toolkit, Node.js, React, Jest, Cypress, MongoDB, DynamoDB, Webpack

- **Cloud:** AWS Lambda, DynamoDB, S3, Docker, GitHub Actions
