PROFESSIONAL SUMMARY

Senior Data Engineer with 10 years of experience specializing in scalable data warehousing, real-time data integration (Kafka), and enterprise data governance on Azure. Proven leader in building robust, compliant data infrastructure for large financial institutions.

EDUCATION

Master of Science in Information Technology

University of Texas at Dallas, 2013

Bachelor of Business Administration

Texas A&M University, 2011

CERTIFICATIONS

- Microsoft Certified: Azure Data Engineer Associate
- Certified Information Systems Security Professional (CISSP)

WORK EXPERIENCE

Lead Data Architect | Wells Fargo | July 2017 - Present

- Designed and managed the core financial data warehouse migration to Azure Synapse Analytics, impacting 500+ analysts.
- Implemented **real-time risk monitoring pipelines** using Apache Kafka and Python, reducing detection latency by 60%.

- Led a team of 6 engineers, developing compliant ETL flows using Azure Data Factory and Spark (Scala/PySpark).
- Established data governance and security protocols (GDPR/CCPA compliant) for sensitive customer data.

Data Engineer | AT&T | June 2013 - June 2017

- Developed and managed Hadoop and Hive clusters for telecom network performance data analysis.
- Wrote complex SQL scripts to transform and load data for BI reporting.

TECHNICAL SKILLS

Programming Languages: Python (Expert), SQL, Scala (Intermediate)

Big Data & Streaming: Apache Kafka, Spark, Hadoop, Hive

Data Warehousing: Azure Synapse Analytics, SQL Server, Snowflake

Cloud Platforms: Azure (Data Factory, Databricks, Synapse), AWS

Tools: Airflow, Git, Data Governance Frameworks

PROJECTS

GDPR Compliance Data Flow

- Designed and implemented a data anonymization pipeline using PySpark to meet GDPR compliance standards.
- Reduced data exposure risk by 75% for EU customer records.
