PROFESSIONAL SUMMARY

Full-Stack Developer with 5 years of experience specializing in the modern JavaScript ecosystem and AWS serverless architecture. Expert in building responsive, high-performance web applications using React and Node.js. Successfully led features from concept through to cloud deployment.

EDUCATION

Bachelor of Science in Computer Science

The University of Texas at Austin, 2018

CERTIFICATIONS

- AWS Certified Developer – Associate
- Certified Kubernetes Application Developer (CKAD)

WORK EXPERIENCE

Senior Full-Stack Developer | Dell Technologies | March 2021 - Present

- Architected and developed a new customer portal using React/TypeScript and Node.js microservices, handling 10,000 active users.
- Implemented a serverless backend using AWS Lambda, API Gateway, and DynamoDB, reducing hosting costs by 40% compared to EC2.
- Led the implementation of CI/CD pipelines using GitHub Actions and Docker, cutting deployment time from 1 hour to 5 minutes.
- Designed and optimized GraphQL and RESTful APIs for internal and external consumption.

- Partnered with UX/UI team to refactor key components, improving page load speed by 35% and user engagement.

Full-Stack Developer | RetailMeNot | June 2018 - February 2021

- Developed features across the stack using React, Redux, and Express.js, contributing to a 20% increase in conversion rates.
- Managed PostgreSQL and MongoDB databases, optimizing complex queries for reporting and user transactions.
- Implemented robust unit and integration tests using Jest and Cypress, ensuring 95% test coverage.

TECHNICAL SKILLS

Programming Languages: JavaScript/TypeScript (Expert), Python, SQL

Frontend: React, Redux, Next.js, HTML5, CSS3, Webpack

Backend: Node.js, Express.js, Python (Django), REST, GraphQL

Cloud & DevOps: AWS (Lambda, DynamoDB, API Gateway, S3), Docker, Kubernetes, Git, CI/CD

PROJECTS

Serverless E-commerce Platform

- Built a proof-of-concept e-commerce application using React frontend and AWS Lambda/DynamoDB backend.
- Implemented secure user authentication and payment integration via Stripe API.

Real-Time Chat Application

- Developed a real-time chat service using Node.js, WebSockets, and MongoDB.
