PROFESSIONAL SUMMARY

Aspiring Data Scientist with 2 years of professional experience and a strong academic foundation in statistical modeling and Python programming. Proven ability to apply Scikit-learn and basic deep learning concepts to solve business problems, focused on actionable insights and rigorous statistical testing.

EDUCATION

Master of Science in Applied Statistics

University of Chicago, 2023

Bachelor of Science in Mathematics

University of Illinois at Urbana-Champaign, 2021

CERTIFICATIONS

- IBM Data Science Professional Certificate

WORK EXPERIENCE

Junior Data Analyst | Walgreens | June 2023 - Present

- Conducted descriptive and inferential statistical analysis on customer loyalty data to measure campaign effectiveness.
- Developed basic predictive classification models using Python and Scikit-learn, achieving 85% accuracy in pilot program.

- Wrote and optimized SQL queries to extract large datasets from data warehouse for ad-hoc analysis.
- Designed and implemented A/B testing frameworks for marketing campaigns, providing clear statistical readouts.

Data Science Intern | Deloitte | May 2022 - Aug 2022

- Assisted senior team in data cleaning and feature engineering using Python (Pandas/NumPy).
- Learned basics of Spark and cloud environments for data storage.

TECHNICAL SKILLS

Programming Languages: Python, SQL, R

ML Frameworks: Scikit-learn, basic TensorFlow, XGBoost

Big Data: Basic Apache Spark, Pandas, NumPy

Tools: Jupyter, Tableau, Git

Statistical Methods: A/B Testing, ANOVA, Regression, Experimental Design

PROJECTS

Credit Risk Model

- Built a logistic regression model in Python to predict credit default probability.
- Compared model performance against simpler statistical benchmarks.
